Introduction

INNOHACKS is an annual hackathon organized by Innogeeks at KIET Group of Institutions in Delhi-NCR, Ghaziabad. Its primary objective is to gather skilled and talented young minds for 24 hours to celebrate their technical passion and develop exciting projects.

Last year's InnoHacks was a massive success with over 120 participants and 5 lakh impressions. Esteemed judges, including Akshay Saini, Striver, and Arsh Goyal, delivered informative and engaging speaker sessions that provided invaluable insights and inspire future innovation. Participants gained valuable knowledge and competed for grand prizes that motivated them to give their best. This year, we're excited to take InnoHacks to new heights of triumph.

INNOHACKS will provide participants with an excellent opportunity to display their abilities, cultivate their ideas, and win fantastic prizes! The event will feature a variety of activities, both enjoyable and technical, that will enhance participants' experiences and provide them with a supportive environment to develop as innovators and leaders.

Our club's aim is to encourage learning and celebrate the power of technology through this hackathon. Come and join us for 24 hours of innovation, hacking, and unlimited fun!

Our Past Events

INNOHACKS'22

INNOHACKS, an annual hackathon organized by Innogeeks at the KIET Group of Institutions, Delhi-NCR, Ghaziabad. We were honoured to congregate many adroit minds from various parts of the country. We witnessed many amazing hacks throughout the event, which were made by overcoming perplexing challenges! Our affable coordinators made sure that every participant is provided with the resources they need. We are proud to share that this event was enlisted at the top on Unstop (D2C earlier) platform
